

REGENERATION...?

Graduate Development Programme in regeneration

Transform entire areas and communities, not to mention your career.

English Partnerships is the national regeneration agency helping the Government to support high quality sustainable growth in England. English Partnerships helps to create communities where people can afford to live and want to live and supports the urban renaissance by improving the quality of our towns and cities. In 2009, English Partnerships will become part of the Homes and Communities Agency – the body which will drive forward the Government's plan for delivering three million new homes by 2020 and ensure the creation of thriving communities through regeneration and renewal.

We are looking for enthusiastic, self-motivated people with a passion for regenerating communities and delivering new homes to train as regeneration specialists on our two year Graduate Development Programme.

You will experience placements throughout English Partnerships and other private and public sector organisations, contributing to some of the most high profile and complex housing and regeneration projects and across the country.

Initial salary around £22.7k rising, upon successful completion of six-monthly reviews, to high £20k's. Full funding for a qualification in regeneration is available, plus a final salary pension scheme.

For more information, or to apply online visit www.englishpartnerships.co.uk/graduates

We are working with PATH, a positive action organisation and welcome applications from everyone regardless of gender, age, religion, race, disability or sexual orientation.
